

Fire Extinguisher Servicing

We are specialists in the fire extinguisher sector with fire extinguisher servicing carried out strictly to the latest British Standards by qualified Technicians.

Our inclusive fire extinguisher service plan includes all the consumable parts which are required to be changed annually as per the British Standard. This ensures you have no additional costs for fire extinguisher parts when you receive your invoice and also enables easier budgeting.

We provide a free of charge fire equipment asset register for all fire extinguishers, Fire blankets, Extinguisher trolley units and Fire hose reels on your premises.

The information we provide you is detailed below -

- Equipment location
- Equipment Type
- Equipment Size
- New or last date tested
- Date due replacement or test

Our asset register ensures we minimise disruption whilst on your site and we also email this asset register to you after every inspection. Using asset registers enables you to foresee replacements which assist you with your fire safety annual budgeting. The asset register can also be used to assist you with your monthly fire extinguisher checks.

Along with standard fire extinguishers we can also supply specialist equipment like 'D' Class Dry Powder, Alcohol resistant foam fire extinguishers and the very latest Lithium-ion battery fire extinguishers.

Together with fire extinguishers we also provide a wide range of fire extinguisher cabinets, Stands, Covers and other ancillary products to ensure your equipment is kept in the best possible condition.

We work with a small selection of UK suppliers to ensure all of our equipment we supply meets all of the current requirements. Our five star customer rated quality customer service and five year equipment guarantee ensures we are a perfect provider for your business.

Our fire extinguisher service client base includes Airports, TV & Film Studios, Vehicle Manufacturers, Football Clubs, Racing Teams not to mention the many other Businesses, Charities, Educational Settings and other organisations who trust us to maintain their fire safety equipment and provide them with quality products.

For a free quotation to service your fire extinguishers please contact us using the information below.
